FRIENDLY REMINDERS

Here are a few tips on how we can all make Samba a safe space to dine in.

Our clean commitment

We are committed to ensuring your safety during your visit. The restaurant and all equipment have been well-sanitized and are under a regimented sanitation schedule. Proper hygiene practices and strict food safety protocols are observed to ensure the cleanliness and quality food, beverage and retail items that we serve.

Keeping the distance

We need space. Yes, we all do, especially at a time like this. Social distancing is strictly observed here at Samba with distancing markers on our floors when queuing and on your designated seat.

Health checks upon entry

All guests are required to undergo temperature checks and accomplish a digital Health Declaration Form upon entry. It is important for us to know that you are well and are recorded as part of our contact tracing measures.

Mask on. Mask off.

Wear your mask and face shield at all times except for when you are eating. We've provided you with your own disposable mask holder so you can keep it clean as you enjoy your experience at Samba.

Go contactless

We encourage you to go contactless before and after you dine. Scan the QR code to view our a la carte food and beverage menu. When billing out, we encourage that you choose to charge it to your room for in-house guests or opt for cashless transactions.

Meet Susie

Should you feel unwell or are experiencing any physical discomfort, please do not hesitate to inform us so we can assist you. In the meantime, enjoy your visit!
